

Think Alouds

Teaching and Learning Through Thinking, Speaking & Visualizing!

Making the Technology/PLN Connection with Popplet

Popplet is a great Web 2.0 tool for helping students visualize the “think aloud” process! This resource can also be utilized in conjunction with other instructional strategies, such as a Do Now and/or Exit Ticket, as well as graphic organizers, concept maps, brainstorming diagrams and/or KWL charts. 😊

Check out this cool tool at <http://popplet.com>.
